Great Drikung Phowa Chenmo Practice *"The Standing Blade of Grass"*

The world-renown Great Drikung Phowa is especially auspicious during a full moon in a Monkey Year. January 12, 2017 is the full moon during the retreat. The Phowa practice is the most direct and quickest method by which one may be assured of a positive rebirth and possible enlightenment at the time of death. During this retreat, attendees will have the same opportunity of receiving and practicing the Phowa transmission and teachings as did many hundreds-of-thousands of Tibetans and other practitioners around the world. Also included in the retreat will be the Nyingma Lineage Phowa transmission that Khenpo Samdup received from Khenpo Munsel.

Retreatants must commit to continuous 5-days and nights at DDSC.
Bring clothing, toiletries, medications, bedding, mats, mattresses, etc.
Simple vegetarian meals and practice texts will be provided.
